INLINE ISOLATION SOLUTIONS

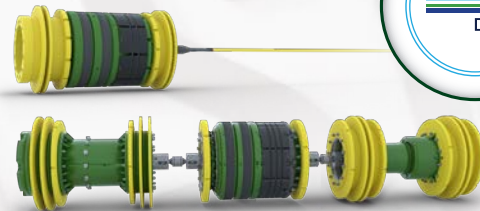

Tecno Plug® Tethered and Remote Deployment
Double Block & Bleed / Monitored Isolation

BENEFITS:

- ✓ Proved double block & bleed / monitored isolation
- ✓ Fail-safe – Self-energised isolation
- ✓ Stable with fluctuating pressure
- ✓ NACE Compliant - H2S Service
- ✓ IMCA - D044 Compliant
- ✓ Short tool length

CORE APPLICATIONS:

- ✓ Pipeline valve replacement / repair or installation
- ✓ Pipeline / riser repair, replacement or decommissioning
- ✓ Pipeline diversion / re-routing or tie-in
- ✓ Mid-line pipeline repair

SIZE RANGE
3" - 56"

MAX PRESSURE
200BAR / 2900PSI

HOT TAPPING AND LINE STOPPING SOLUTIONS

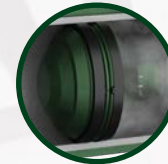

BISEP®
Double Block & Bleed Isolation

BENEFITS:

- ✓ Proved double block & bleed isolation
- ✓ Fail-safe – Self-energised isolation
- ✓ Stable with fluctuating pressure
- ✓ NACE Compliant - H2S Service
- ✓ IMCA - D044 Compliant
- ✓ Proprietary hot tap machines, fitting supply

CORE APPLICATIONS:

- ✓ Pipeline valve replacement / repair or installation
- ✓ Pipeline / riser repair, replacement or decommissioning
- ✓ Pipeline diversion / re-routing or tie-in
- ✓ Mid-line pipeline repair

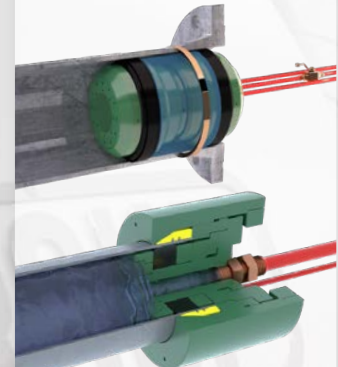

SIZE RANGE
3" - 56"

MAX PRESSURE
153BAR / 2220PSI

LEAK & STRENGTH TESTING Test Tools & Pipe End Plugs

BENEFITS:

- ✓ Straightforward installation and operation
- ✓ Reduces time and material costs
- ✓ Fail-safe designs

SIZE RANGE
1/2 - 36"

MAX PRESSURE
350BAR / 5076PSI

WORLD CLASS TECHNOLOGY SOLUTIONS TO SUPPORT THE ENERGY INDUSTRY

- ✓ Maintenance activities of ageing infrastructure
- ✓ Pipeline re-routing / tie-in projects
- ✓ Decommissioning and abandonment projects
- ✓ Pipeline repurposing, hydrogen, high pressure liquid CO₂
- ✓ Emergency Pipeline Repair Systems

SUBSEA SOLUTIONS

- ✓ Mechanical Pipe Connectors
- ✓ Structural Repair Clamps
- ✓ Mechanical Hot Tap Clamps featuring dual seals and locks
- ✓ Pipeline repair, modification, re-routing or decommissioning
- ✓ Emergency Pipeline Repair Systems

GLOBAL SUSTAINABLE SOLUTIONS

- ✓ Safe, proven double block and bleed isolations of pipeline infrastructure
- ✓ Local presence, high in-country value
- ✓ Helping client's lower emissions by reduced flaring / venting
- ✓ Delivering to global and regional industrial standards
- ✓ Supporting the transition for CCUS and Hydrogen blended pipeline requirements
- ✓ Supporting Sustainable Development Goals (SDG)
